I am an ambitious and not-so-cool person. I love to sit under dense shadows and stare at squirrels. I love greenery, wide-open fields. When served with cool breeze of Spring or rainy season, I reach my peak of excitement, happiness and love. Nature leaves no opportunity to surprise me with its beauty and self-balancing power. My interests can be traced back to my birth place, a peaceful and green village. Apart from this, I am also interested in thinking and solving Mathematics problem, specially permutations and combinations.
